

VDXK10-110-111

Telecentric lens

- Perfect imaging paper, supporting tens of millions of pixels digital camera;
- Strong mechanism design, with high shock resistance;
- Excellent central and peripheral imaging;
- It is widely used in high-precision visual positioning and other occasions.

Magnification		1x	
Conjugate Distance		273.5mm	
Working Distance		110mm	
F.No		F10	
Object Telecentricity		<0.1°	
Distortion		<0.05%	
Resolution		0.3>@100LP/mm	
DOF		0.45mm	
N.A		0.05	
Mount		C-Mount	
Max Image Circle	sensor(mm*mm)	1.1"	2/3"
		14.2x10.4	8.8x6.4
Object perspective	Field of View	14.2x10.4	8.8x6.4
